Summary

Ambitious undergraduate specializing in **Artificial Intelligence and Machine Learning**, with a strong focus on developing intelligent systems to solve real-world problems. Possesses hands-on experience in building machine learning and deep learning models, particularly in **computer vision applications** such as disease detection and image classification.

Demonstrates a structured and analytical approach to problem-solving, with the ability to design, optimize, and enhance model performance. Actively engaged in continuous learning through practical projects and industry-recognized certifications, aligned with current technological trends.

Highly motivated to leverage AI for **societal impact**, especially in domains such as healthcare and agriculture. Brings a combination of technical knowledge, adaptability, and a results-driven mindset, with the ability to contribute effectively in collaborative and innovative environments.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Machine Learning
VIT Bhopal University
2023 – 2027

TECHNICAL SKILLS

Programming Languages

- Python
- Java

Artificial Intelligence & Machine Learning

- Machine Learning
- Deep Learning
- Computer Vision
- Convolutional Neural Networks (CNN)
- Model Optimization

Generative AI

- Prompt Engineering
- Vertex AI
- Gemini
- Streamlit Application Development

Core Concepts

- Data Structures and Algorithms

- Supervised Learning
- Model Evaluation Techniques

Tools & Platforms

- MATLAB
- Microsoft Excel
- Streamlit

Additional Skills

- Operating Systems: Windows, Linux
- Front-End Development (Basic)

PROJECTS

Skin Disease Detection System

- Developed an image classification model to detect multiple skin diseases using machine learning techniques
- Improved prediction accuracy through data preprocessing and model tuning

Potato Disease Detection System

- Built a CNN-based model to classify potato leaf diseases into Early Blight, Late Blight, and Healthy categories
- Enhanced model performance through training optimization techniques

---

CERTIFICATIONS

- Machine Learning Using Python – SkillUp (2026)
- Google IT Support Certificate – Google (2026)
- Machine Learning with Python – IBM (2025)
- Machine Learning with Python (V2) – Coursera (2025)
- Google Cloud Generative AI – SmartInternz (2025)
- Develop GenAI Apps with Gemini and Streamlit – Google (2025)
- Prompt Design in Vertex AI – Google (2025)
- IBM SkillsBuild Internship – Front-End Web Development – Edunet Foundation (2025)
- Web Development Fundamentals – IBM (2025)
- Data Science with Python – Finlatics (2025)
- Excel for Beginners – Great Learning (2024)
- Robotics and Artificial Intelligence – Great Learning (2024)
- Data Structures and Algorithms in Java – Great Learning (2024)
- Programming Basics – Great Learning (2024)
- Python Essentials – VITyarthi (2023)
- MATLAB Onramp – MathWorks
- SEBI National Financial Literacy Quiz – NISM

ACHIEVEMENTS

- Ranked in the **top 5% nationwide** in SEBI National Financial Literacy Quiz (2024, 2025)
- Developed multiple AI and ML-based systems addressing real-world challenges
- Strong practical expertise in machine learning and deep learning through hands-on projects
- Completed multiple industry-recognized certifications in AI, ML, and Generative AI
- Demonstrated ability to independently learn and apply emerging technologies
